Sprint # 1

User Stories, User Acceptance Tests, Storyboards and Scenarios: 110 points

Team Grade: 50 Project : B Team: 1	Points Earned
(25 points) Project Demonstration: You will schedule a time during the Week of March 11th, to demonstrate your completed user stories and your unit tests that show these user stories work. You will provide to your reviewers the appropriate user acceptance tests that you will also be running to show the user functionality they will have in this iteration.	25
(10 points) Spring Backlog and Scrum Meeting documentation: The Sprint Backlog is a subset of the Product Backlog of the requirements that are being implemented during the sprint. A report of the Scrum Meeting consists of the answers to the modified version of the "questions".	5
(15 points) Description of the User Stories and Test Cases completed during the sprint: Provide a detailed description of the user stories and test cases that were completed during this sprint utilizing the SOA architecture and Android app development introduced in this course.	10
(10 points) Team Reflection: What did each member work on, what was accomplished, what worked during this iteration, what issues you encountered, how might you need to modify your goals for Sprint 2.	10

Note: Individual overall grade may be reduced if Personal Contribution Survey was not completed or for low personal contribution ratings by teammates.

Comments:

-5 missing sprint backlog, -5 missing testing
